

Regarding MB 18-184

My name is Howard Owsley in Aurora, CO.

I am in full support of the MMTC and SSR Communications FM Class C4 / 73.215 proposal to allow eligible Zone II Class A stations to upgrade in power from 6,000 Watts to 12,000 Watts.

Please implement the MB 18-184 proposal fully without delay.  
Many small broadcasters need this relief.

Sincerely,  
Howard Owsley
